this is how we got here

WE ARE DISTRACTED

Why? Changes in access. If you divide human existence by the average lifespan; you get 800 lifetimes. We:

LIVED IN CAVES

STARTED WRITING

THEN PRINTING

THEN DRIVING

THEN ... EVERYTHING

The result? Increased consumption (400%!).
Shorter attention spans. Poor memory. Decision fatigue.
Disengagement.

TAKE NOTES HERE

Taking notes by hand improves retention and learning.

THE DOODLING CORNER

Doodling can improve focus and memory by 30%.
