2017 Annual Convention Call for Presentations October 18-20, 2017

Proposed workshops/breakout sessions are now being considered for the 2017 NARPM® Annual Convention. The NARPM® Convention boasts an attendance of approximately 900 professionals and qualified residential property managers. The attendees include company owners, brokers, managers, executive officers, support staff, and suppliers - including those working with technology, web site, personal assistants and others. Consider becoming a part of the rich NARPM® tradition of sharing professional and business knowledge by submitting a proposal to speak.

As you consider submitting a presentation proposal keep in mind that NARPM® Convention attendees want practical knowledge - give attendees ways to become more effective professionals, information that can be applied or tools that can be put to use, and job aids which are always popular. Theory is useful only when session participants are shown how to use it. Learning is not a passive activity. Give yourself a break-let others help do the talking. Attendees usually learn best when they are doing, not only when they are listening. Involve participants by asking questions, using exercises, and other activities.

All NARPM® members are invited to submit proposals for Convention Presentations using this form. **The professional submitting this proposal for the program is responsible for contacting all co-presenters and for all details including proposal submission, communication with co-presenters, presentation format and audio-visual requests.** The Association will provide a screen and projector for sessions needing them. **You must provide your own laptop for any PowerPoint presentations.** The Association will determine if and what type of microphones will be used in each session. Requests for additional audio/visual equipment will be considered on a case-by-case basis. Internet access in the meeting space is not provided by NARPM®. **Please note: NARPM® policy states that affiliates may not attend or speak at NARPM® events unless they are paid exhibitors at that event.**

* **Proposals must be received by NARPM® no later than March 8, 2017.**

* **Notification of acceptance will be made no later than April 5, 2017.**

How to Maximize Profits and Reduce Vacancy using Airbnb

Airbnb is not just for private home sharing anymore. The global rental platform is giving professional residential property managers the ability to increase revenue, maximize profits, and reduce vacancies in ways that weren't possible a few years ago.

In this panel discussion, we'll review Airbnb's various programs and requirements, revenue potential, common pitfalls, practical tips, and real-life success stories. Whether you manage one unit, or a hundred, you'll learn how to leverage Airbnb to produce more revenue for you and your owners.

Even if you typically only rent to long-term residents, you'll learn how to experiment with Airbnb with one or two units, to see if it's right for you.

Airbnb is a game-changer that you can't afford to ignore, and we'll teach you how to get started with secure, controlled, profitable short-term housing.

Learning objectives

1. To learn about short-term housing as a means to increase profit.
2. To reduce the barriers of getting started with short-term housing.
3. To explore the various programs and best practices for success on Airbnb.
